³ Profi 8.2013, www.profi.com
⁴ Profi 8.2015, www.profi.com

ONLY ONE CAN TAKE THE LEAD.

The 8400R has set the new benchmark with an outstanding Drawbar Performance of 275 kW¹. This is nearly 23% higher output than it's competition⁴. At the same time, the 8400R sets new records in the lowest total fluid consumption with 247 g/kWh¹.

In addition, our new Connectivity Package offers everything you need to get the most out of your John Deere tractor: AutoTrac, ISOBUS, JDLink, Remote Display Access, MyJobConnect (Ultimate Package) and access to MyJohnDeere.com.

Nothing runs like a Deere!

JohnDeere.com

Welcome to our new look Sentinel, the smaller format means that we can keep you up to date more regularly with the latest offers and promotions from Tallis Amos Group (TAG).

2017 marks a huge mile stone in TAG's history, 50 years with John Deere. In 1966 Alexander and Duncan, an established agricultural and hardware supplier were appointed as one of the five original John Deere dealers. In our first year with John Deere we sold 4 tractors 2 model 214 balers as well as Lundell Forage Harvester and corn drills.

Since these early beginnings then we've seen huge changes in both our business and the industry. In the 1960's the average tractor was just 53hp, today it has grown to over 160hp, and advanced technologies not even dreamt of in the 1960's such as AutoTrac automatic guidance and now commonplace.

One thing that hasn't changed is a continued drive for performance, today's large arable customers looking for maximum daily output are well catered for with John Deere's current line-up. The range topping 8400R is available in either four wheel drive or the RT tracked

version. With up to 450hp from it's 9.0 litre turbocharged engine, output and field performance is phenomenal. Combine this with best in class total fluid consumption (Diesel & DEF), advanced technology, reliability and residual value and the 8400R is a clear winner as a high performance heavy draft tractor.

Performance is about more than just horsepower, we offer smart precision agricultural solutions across the range full including JDLink and MyJohnDeere.com combined with a range of advanced guidance solutions. (Page 5).

As well as heavy draft tractors we also have a full range of utility & compact tractors ranging from 26-195hp so whatever your need we are confident that there is a product in the John Deere line up that is made just for you.

For total piece of mind you can now fix your operating costs with PowerGard extended warranty and TAG Premium Care (Page 11).

Check out the full range online at tallisamosgroup.co.uk or ask your sales representative for a demonstration.

Tallis Amos Group collecting their 50th celebration award. L-R Jonathan Henry (JD UK Managing Director), Simon Amos (TAG Sales Director), Cyril Amos (TAG Director), Joedy Ibbotson (JD UK Division Sales Manager).

Call your local TAG sales representative for more details and ask us for an on-farm demonstration.

PRECISION TIME...

Improve the accuracy of your cultivation & drilling this Autumn with a range of Precision Ag Solutions from Tallis Amos Group.

StarFire 6000 Trade-In offer.

The John Deere StarFire 6000 Receiver is an enhanced replacement for the StarFire 3000 Receiver and expands on the value that precision agriculture producers have come to expect from StarFire products. The StarFire 6000 Receiver uses an improved antenna, the latest in Global Navigation Satellite System technology, and a new differential correction signal. All of this new technology adds up to improved performance when paired with precision agriculture systems such as AutoTrac™ assisted steering system and John Deere Section Control.

StarFire 6000 horizontal pass-to-pass accuracy:

- SF1: +/- 15 cm (5.9 in.) SF3000 23cm
- SF3: +/- 3 cm (1.2 in.) SF3000 5cm

Trade in your SF3000 receiver and upgrade to the latest SF6000 receiver from just £1,750 (SF1)

SERVICE SOLUTIONS

NEW - TAG PREMIUM CARE

A PACKAGE TO MEET EVERY NEED

TAG Premium Care

In addition to the already popular PowerGard and PowerGard Plus protection schemes, we are now able to offer TAG Premium Care – A true fixed cost solution with no deductible.

Helping with budgeting by protecting against unexpected service costs, TAG Premium Care also allows you to lock into today's servicing pricing for up to 5 years whilst spreading the cost with convenient monthly payments. We also absorb all extended warranty deductibles normally charged through Powergard and Powergard Plus.

When JDLink is fitted to your machine we will monitor your equipment remotely to ensure it running to its full potential.
