

# PRECISION FARMING SOLUTIONS

## PRECISION FARMING SOLUTIONS FROM TALLIS AMOS GROUP

From basic guidance right through to variable rate applications documented on the MyJohnDeere operations centre, our team here at TAG are able to offer you the best possible service and support throughout the farming calendar.

The setting-up of machinery and implement installation, crop and field performance documentation and ensuring that all the information you have collected can be interpreted correctly by operators, owners, managers and advisors.

Getting the best from your advanced John Deere technology requires thorough operator knowledge, training and real-time support. Linking field and machine data to the office enables effective decision making driven by fast feedback of machine performance data, and accurate crop data analysis.

## PRECISION FARMING SUPPORT PACKAGES

### STANDARD

- Phone & Email Support
- In depot & remote software updates and support
- One on-site visit for operator support

**Annual  
Cost**

**£225**
